

Peter Milthorpe and Margaret Wynne, NSW DPI Condobolin, have put together a fantastic book – “Useful Trees and Shrubs for Central West NSW”.

The book is in the form of the popular Glove Box Guides, so it is small enough to carry with you, has strong, glossy paper so can be used in the field without ruining it and has beautiful colour photographs so that you can see the tree, leaves, flowers & buds and fruits & seeds to help with identification.

There are 75 trees and shrubs shown in the book. They are trees and shrubs that are suitable to this environment; those that have proven to be useful. The work Peter and Margaret have put together has come from research carried out on the Condobolin Research Station, knowledge from publications and Peter’s years of experience.

CWFS and NSW DPI are selling agents for the book. If you would like to order your book through CWFS please fill out the form below and send it to us. A receipt will be sent to you with the book.

Book orders \$28 + \$3 postage and handling per book

CWFS Contact: PO Box 171 Condobolin NSW 2877; Phone 02 6895 1007; FAX 02 6895 2688
